Attention: **Library Director/Head Librarian**

Dear Dr. Gamboa:

Warm Greetings.

The Mindanao Association of State Tertiary Schools' Library Network (MASTSLiNet) existed since October 25, 2014, will be holding its 5th Annual General Assembly Meeting, Planning and Seminar-Workshop with a theme: "*The Filipino Librarian and Continuing Professional Development (CPD) : Setting the National Agenda Amidst Challenges and Opportunities*" come on May 22-24, 2018 at Jose Rizal Memorial State University, Dapitan City.

The assembly also includes a Seminar-Workshop riding on the burning issue among Filipino professionals, the CPD or the Continuing Professional Development. Both pros and antis are active in their respective campaigns, and librarians are no exception. With CPD still governing the profession, its requirements remain in force and effect, until legally revoked. The Continuing Professional Development (CPD) identified by the Philippine Librarians Association, Inc. (PLAI) of Filipino librarians, is focused on at least five (5) major areas, which were culled from the suggestions and recommendations of librarians attending seminars, workshops, congresses, and conferences. The five areas are: Information Technology (IT), Work Ethics or Values, Green Environment, Management, and Research.

Along this line, may we invite your Librarians and IT Practitioners, as they play vital role in attaining the objectives of the network. A registration fee of P 6,000.00 shall be collected to shoulder expenses for plaques and certificates, food (inclusive of 3 lunches and 3 morning and afternoon snacks), honorarium and accommodation of speakers, supplies and communication, and seminar kit.

Finally, as stipulated in the MASTSLiNet bylaws duly notarized, each institution shall pay a one-time membership fee of P 5,000.00 and P 1,200 annual dues starting from 2017 to present.

Further, listed hereunder are the objectives and expected output of the training. Specifically the seminar-workshop aims in attaining the following objectives:

- A. to warrant the deployment of Koha as a LMS not only among MASTSLiNet libraries, but also to prospective academic libraries who are planning to install one in consideration of RDA, MARC21, AACR2, LCCS, and the mutual collaboration of librarians and IT practitioners;
- B. to contextualize the Code of Ethics for Librarians in academic libraries by dissecting concrete and specific instances from the local to the national level;
- C. to explore possibilities, given limited resources and capabilities, of constructing green academic libraries;

- D. to connect the 4th General Assembly outputs on quantitative and qualitative researches to the possibility of publications in reputable professional journals, with the launching of the first issue of the MASTLiNet Journal;
- E. to provide an overarching view of management as seamlessly applicable to academic libraries on such concerns as IT, Work Ethics and Values, Green Environment, and Research;
- F. to review and approve the MASTSLiNet's Constitution and By-laws, Covenant of Academic Libraries, and set the network's next business agenda; and
- G. to hold the Wooden Anniversary of MASTSLiNet on its 5th General Assembly.

Expected Output / Deliverable :

- A. Attendance of librarians
- B. Approval of MASTLiNet's Constitution and By-Laws
- C. Approval of the Covenant of Academic Libraries
- D. Approval of the Next General Assembly

Your valuable support to this undertaking is highly appreciated. Thank you and God speed!

Very truly yours,

GARRY L. BASTIDA, RL.

Kabacan, Cotabato Province

1. The Role of State College and University Administrations

College and University Administrations are vital in the establishment, development, management, and enhancement of academic libraries. Extending financial support to the activities defined in the SALAP, as well as provides incentive mechanisms to further enhance library personnel duties and responsibilities will ensure sustainability of academic libraries during their terms of office in the short-term, and to eradicate illiteracy in the long-term.

2. The Role of the Commission on Higher Education (CHED)

CHED has the direct link to the national administration. It is highly recommended that CHED makes use of this connectivity to ensure inclusion in the budgets of State Colleges and Universities toward illiteracy eradication by publicly recognizing the role of academic libraries. Such budgetary enclosure will go towards the development of academic libraries information and communications technology infrastructure.

3. The Role of the University of the Philippines (UP)

As the national university of the Philippines, UP has a leading role in the development of state colleges and universities in the Philippines. With campuses spread throughout the country, UP can provide assistance to state academic libraries in terms of sharing its Integrated Library System (ILS), training of librarians and library personnel, information and communications technology infrastructure, knowledge and online databases, and other library services.

4. The Role of the Philippine Association of State Colleges and Universities (PASUC)

As the national association of the state colleges and universities in the Philippines, PASUC has a leading role in the development of state colleges and universities in the Philippines. It is highly solicited that the PASUC provide approval and the necessary support to the initiatives and program of the MASTLiNet through the MASTS leadership.

Benchmarks of Excellence (BoE)

MINDANAO ASSOCIATION OF STATE TERTIARY SCHOOLS LIBRARY NETWORK

c/o The Learning Resource Center, University of Southern Mindanao

Kabacan, Cotabato Province

'Benchmarks of Excellence' are defined as those initiatives and programs which represent a worldwide model of successful implementation of networked libraries in both urban and rural settings. Representatives of the Benchmarks of Excellence through the Covenant should be willing to share their experience and to help academic libraries implement similar approaches when applicable and convenient, and commit to facilitate know-how transfer through the distribution of information, including guidelines, participation in events of the Covenant signatories and, in general, day-to-day co-operation with the Covenant.

3. Supporting structures

The MASTSLiNet Covenant of Academic Libraries is open to all state college and universities libraries of all sizes in Mindanao. Those libraries which due to their size do not have the resources to prepare an inventory, or work on and draft an action plan should be supported by administrations with such capacities. Each supporting structure will be explicitly recognized by the MASTS Leadership as a key actor in the Covenant. The degree of involvement in the Covenant, as well as the specific conditions of such involvement, including decision making powers, will be detailed in a specific written agreement.

SIGNED BY ALL THE HEADS OF ACADEMIC LIBRARIES OF MASTSLiNet, this 15th day of May 2015, at the University Library, Central Mindanao University, Musuan, Bukidnon Province.
